

Mohem Token (MOH) Transparency Guide

Liquidity Lock Proof

The liquidity pools for Mohem Token on PancakeSwap and ApeSwap are locked for a minimum of 12 months to ensure stability and trust. To verify, please review the detailed proof document available at: <https://trustwdu.com/mohem-transparency.pdf>. Transaction hashes and locker links will be updated as they become available.

Audit Plan

Our two-phase audit plan ensures the security of the Mohem Token smart contract:

- **Phase 1:** An initial audit is scheduled with Hashex, with the report available at: <https://trustwdu.com/mohem-transparency.pdf>. This phase covers baseline security checks.
- **Phase 2:** A comprehensive audit will follow with CertiK or SlowMist, with all reports made publicly accessible upon completion.

Please check this document regularly for updates on audit progress and findings.
